

Mission

YCQ is dedicated to providing its students with the best possible educational, social and emotional experience in a *Torah* environment. Developing a child's self-esteem in a loving and warm environment, together with a strong academic program in both Judaic and General Studies is what YCQ seeks to achieve. YCQ focuses on the religious, intellectual, social and emotional success of its students. YCQ imparts a love for Israel and its people, and an appreciation of and facility in Hebrew language and history. It provides innovative, stimulating and diverse learning opportunities in a nurturing atmosphere. A close relationship between home and school is encouraged to maximize the potential of each child.

Vision

Our goal is to produce students who are knowledgeable, responsible, self-motivated, and respectful and who are fervently committed to a *Torah* way of life. These goals are to be pursued in an atmosphere that models the high ideals being taught to our children; an atmosphere of trust, close cooperation, mutual respect and professionalism among administration, faculty and parents.
